ISO 19650 MADE SIMPLE

One plan. Every line owned and agreed.

No more chasing spreadsheets, emails and last job's BEP. Plannerly turns your BIM project into **one plan where every deliverable has an owner who said yes to it**, and keeps the proof for you.

Docs | Scope | Verify | File Manager

SCAN FOR YOUR FREE STARTER PACK

Three free things. No card, no catch.

- **ISO 19650 course** with a certificate
- **Ready-made templates**: BEP, MIDP, RACI and EIR
- **Your first project** in Plannerly, free

Nearly 150,000 teams | Available in **39 languages** | **100+** countries

WHAT YOU GET

Everything your project needs, in one plan

Owners, contractors, designers and consultants use Plannerly to agree who delivers what, check it when it arrives and prove it at the end.

Docs
ISO 19650 templates for the EIR and BEP. AI drafts each answer.

Scope
Every deliverable by milestone, with one owner who agreed to it.

Verify
Every model checked against your requirements, automatically.

File Manager
CDE Connect keeps your files in step. Delivered files fill the plan.

Works with what you already use

BRING IN → ONE PLAN → CONNECTS WITH

Owned and agreed

Including ACC, BIM 360, Forma and more

Reminders that do the chasing: 7 days before a start, 3 days before a deadline and again if it's overdue. The charts update themselves.
