

Bringing Government BIM Compliance to Southeast Asia

Plannerly and Solibri together for government compliance in three countries

THE CLIENT

AdRem IT Solutions is a BIM services company working across **Singapore, Malaysia and Indonesia**. A Plannerly training and consulting partner based in Malaysia, working in Malay and English, AdRem helps governments go digital - bringing government BIM compliance to Southeast Asia.

“ **When you're helping governments go digital, you need a platform teams actually understand. That's Plannerly. ”**

Voon Lok, Managing Director, AdRem IT Solutions

THE RESULTS

3 countries: Singapore, Malaysia & Indonesia

Plannerly + Solibri

Automated CORENET X compliance in Singapore

THE CHALLENGE

AdRem's government clients faced these challenges:

- Going digital is hard
- Keeping everyone compliant is a challenge
- Bringing it to three countries at government level - and keeping it all coordinated
- Teams juggling lots of different tools and software, each hard to understand and to get trained on
- Lots of time lost to manual work and admin, instead of getting quality deliverables right from the start

THE ACTIONS

- Integrated Plannerly with **Solibri's Accessibility Code Checker** for **automated CORENET X compliance** in Singapore
- Brought Plannerly and Solibri together for **government compliance in three countries**
- Used the **tracking reports built in** to Plannerly for compliance statistics
- Now rolling out **ISO 19650 certification** across Malaysia and Indonesia

THE IMPACT

- **Plannerly is critical** to AdRem's information compliance standards
- **More time ensuring better quality deliverables**, and less time collecting compliance statistics with screenshots
- **Government compliance across Singapore, Malaysia and Indonesia**, with Plannerly and Solibri

“ **Plannerly is critical to our information compliance standards and now with the tracking reports built in, we can spend more time ensuring better quality deliverables and less time collecting compliance statistics with screenshots. ”**

Voon Lok, Managing Director, AdRem IT Solutions
